IDEXX Reference Laboratories and IDEXX In-House Laboratories

This guide explains the setup and work flow used to create a test order and to view test results from IDEXX Reference Laboratories and from IDEXX in-house laboratories.

Important: This document applies to DVMAX* software version 8.6 or later. Some features may have changed from previous versions. Refer to additional online resources at dvmax.com.

Link DVMAX test codes to IDEXX test codes

- 1. Go to Section > General Management.
- 2. On the **Utilities** tab, select **Requisitions Setup Wizard** and click **OK**.
- 3. Select the Billing Codes tab.
- 4. From the **Provider** drop-down list:
 - For IDEXX Reference Laboratories, select **IDEXX**, enter the logon credentials, and click **Update Codes**.
 - For IDEXX VetLab* Station, select VetLab, and click Update Codes.
- 5. Double-click the DVMAX* bill item you want to link to an IDEXX code. The Select Requisition Code window opens.
- 6. Highlight the IDEXX test code and click Select.
